

Packaging of dangerous substances (acid, alkali, photochemistry) - Resources potential

Product recipient :
Nehlen Industrieservice GmbH & Co. KG, D-Bremen
www.nehlsen.com

- Raw material potential:
 - preparation for reuse
 - material recycling

- Energetic potential:
 - production of a substitute combustable
 - energetic recovery

- Disposal:
 - landfill
 - incineration
 - losts

Most important output streams

Raw material potential:

Grist HD-PE

Energetic potential:

substitute fuel
