

## Fluidised bed incinerator

Treated products (examples) :

Plastic products (big parts)	soiled composite materials	
------------------------------	----------------------------	--

Plastic products (big parts), soiled composite materials

Processing of waste products in mix

● Raw material potential:  
- preparation for re-use  
- material recycling

● Energetic potential:  
- production of a substitute  
fuel  
- energetic recovery

● Disposal  
- landfill  
- incineration  
- losts

## Most important output streams
